APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 46753 is issued subject to the terms and conditions imposed in said Permit 46753 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This right to change the point of diversion and place of use is issued on condition that if this permit is cancelled, denied or the water is not placed to beneficial use the water will revert back to the source and not to the right being changed.

~~CANCELLED JUN 15 2000 BECAUSE OF FAILURE~~

~~OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT~~

*can rescinded
